[My Portfolio](#)

Boden, Sweden

I am a quality assurance and game tester that would love to help you achieve your goals. I am constantly learning new things and every new project is a new learning experience and an opportunity to contribute with what I already know. I am extremely meticulous, and I have a keen eye for things that are quality related.

## **EDUCATION**

### **Quality Assurance**

Changemaker Educations

09/2023 - Ongoing

### **HIGH SCHOOL**

Njudungsgymnasiet – Computer science

08/2010 - 06/2013

---

---

## **EXPERIENCE**

### **Mail Carrier**

PostNord | 12/2022 - 08/2023

I started during the hectic month of December helping with sorting all the Christmas cards and mail. I then started learning the delivery routes that I got assigned to and then worked a bit on and off until summertime came around when I started working more regularly. I worked as a mail carrier up until I started studying Quality Assurance at FutureGames.

## **Cottage Host**

SkiStar | 10/2016 - 04/2017

I worked during the winter season as a cottage host where I inspected, cleaned and was the face of the company. Here I really got to put my skills to use, looking for faults or issues with the cottages. This is one of my favorite jobs I have had, mostly because of how like-minded everyone around me was and how much I enjoyed it.
